

Everything I know about CI

I learned from Systems Administration

Julian Simpson, The Build Doctor Ltd
with Tom Sulston, ThoughtWorks Ltd

--about-this-talk

Nothing is new

Especially me

Nothing is new

Especially me

Especially me

or Tom

Nothing is new

Especially me

or Tom

Or Continuous
Integration

Yet ...

We still get it wrong

This is therapy for us

10 reasons why
systems admins
rock at CI

Just CI?

Reason #1:

Unix Tools

Reason #2:
Make

Ant: “In theory, it is kind of like
make, without *make*'s wrinkles.”

**“Is my command not executing because I have a
space in front of my tab?!!”**

WTF?

**Reason #3:
We rock at deployment**

Reason #4:
We know systems

Reason #5:
Do you code with the
lights off?

Reason #6:

Troubleshooting

**Reason #7:
Production**

Reason #8: Scale

Reason #9:
Scripting

Reason 10:
Why don't you suggest
one?

**Continuous Integration
is about Collaboration**

If you're not a
sysadmin, buy
yours a beer.

Questions?
The Doctor is in.
